SERVICING & LAMP PRICING

Why Service?

Innovative Audio Visual offer servicing of all your presentation equipment to ensure it stays in tip-top condition, and minimizes any possibility of an embarrassing mid-presentation equipment failure.

Maybe you are not getting the best possible image out of your Data Projector? Often the image deterioration is so gradual that you don't notice it until the projector suffers expensive damage.

Replacement Projector Lamps

This is the single biggest cause of Data Projector failure. We carry stock of all major Data Projector lamps and can usually overnight anything we don't carry. When we replace your lamp we carry out a full, complementary service on your projector.

If your needs are not catered for in the above please contact us and we will source a product that suits.

Innovative Audio Visual is proud stockists of the following leading brands and many more.

TOSHIBA

Pioneer

SONY

Please note all pricing is subject to GST and Freight.
Some products may differ from those pictured.
